Independent Learning Contracts (Studies not offered in the term schedule)

Students are strongly urged to select studies from the course schedule of offerings each term. However, to provide flexibility in degree planning and especially to assist graduating students in need of an essential study not offered in their final term, students may request a study through an independent learning contract outside the schedule. Every attempt will be made to accommodate such requests. However, approval will be based on availability of appropriate mentors and learning resources. Contact your primary mentor for more information. Students requesting such studies may meet with assigned mentors outside of the residencies or during the residency.
