BA/BS in Human Development Degree Planning Worksheet

Bachelor's degree programs in Human Development must meet all six foundations listed below. Knowledge of each outcome can be demonstrated through transcript credit, individual prior learning assessment (iPLA), prior learning evaluation (PLE), credit by examination, or specific courses at Empire State College. The goal of this worksheet is to provide a list of some of the SUNY Empire courses that fulfill each foundation. While many students will take one or more courses for each foundation, some courses may meet more than one foundation. Students will explain how they meet each foundation in their Degree Program Rationale.

In consultation with their mentor, students are encouraged to use the worksheet below to help determine how their degree will meet Area of Study Guidelines. Empire's general graduation requirements (e.g., General Education, Educational Planning, credit totals) also apply.
