PROGRAM¹	INDICATOR	RESULT
MBA in Business Management /MBA in Management	Graduation Rate	60.5%

Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Graduation Rate ²	Six-year graduation rate that represents the percentage of the cohort 2011-12 (first registration in a graduate course took place in Fall 2011, Spring 2012, or Summer 2012) who completed their degree within six academic years after their cohort year. Year 6 for the 2011-12 cohort was 2017-18 academic year.

¹ Since the new MBA in Business Management program is the revision to old MBA in Management program, the graduation rate considers students from both programs.

² Students whose first registration in a graduate course preceded their first master's program active date were considered non-matriculated students and were excluded from this analysis. Likewise, students whose first registration in a graduate course took place three or more years after their first master's program active date would have needed to reapply and were excluded from this analysis.
