To submit an application you must create a new account*
* If you already have an account please login and proceed to step 6

1. Fill out the required fields
2. Select a password, password question (can not be the same as password answer), and password answer. Please write this information down somewhere, as they will be used to reset your password if you ever forget it
   (This email and password will be also used for future logins to access your application)

3. At the bottom, click the “Create Account” button

4. If done correctly, you will be brought to the “my account” page, listing the information you entered when creating your account
At the bottom of the page is where you can begin your application by clicking on “Start an Application”.

Then click on the application you are starting (undergraduate, graduate or nondegree).

Click on the “Start Application” icon.

Enter all required information and submit it.

**TIP:** One of the pieces of information you will be required to enter is regarding your educational background. If you have a GED, you select “yes.” If you have received a HS diploma, select “no” and enter a high school. Please note that you must first SEARCH for the high school and then SELECT it.
**TIP:** Entering prior college(s) is done the same way. SEARCH for it first, then SELECT it. (Finding a SUNY school is easier by searching “SUNY” and then selecting the correct school.)

**TIP:** When you get to the payment screen, insert a promo code if one was given to you or complete the payment information and click “next.”

You will then be brought to a screen where you enter your credit/debit card information. Enter your card account number and click “continue.” You MUST then complete the rest of the account information and the cardholder billing information. When complete, click “continue.” On the next screen, confirm the information you entered is correct and click “submit payment.”

If done correctly, you will see this confirmation.
On the confirmation screen, click on “Click to check your application status” which will bring you to a screen where you can see if your application has been submitted (listed under “status”).

You now must upload your admissions essay.

Click on “view” under supplemental items.

You will now see a list of items that may need to be submitted, as well as whether they have been received or not. To upload your essay, click on “browse” in the essay row. Select wherever it is on your computer and upload it.

TIP: Anywhere you see a statement starting with “click here...,” right-clicking on it will open a new window and bring you to additional information. For example, right-clicking on “click here to view the undergraduate essay” will bring you to the page which explains the application essay prompt (what you should be writing about).

If you log out of your application before submitting it

1 Log into your account

2 Enter your log in information (email and password) and click “log in.”

3 Scroll down to the bottom of the page.

4 Click on “Complete an Application.” Please do NOT start a new one.
