

Greetings:

Now that you are all experts on getting to the SharePoint site, we have created this tutorial on how to use the FAQ site.

## PART II: Using the FAQ site

Let's jump right in!

- 1) It is recommended that you are looking at the FAQ site as you read through this tutorial. If you do not know how to access the FAQ site. Please review the How to get to SharePoint Part I tutorial. First, let's look at the left hand side of the FAQ home page. There are some quick links that will assist you with your search.

- 2) If you have a specific question/topic, you can search the site. This is located in the upper right hand corner.

- 3) If you cannot find your question, please submit a question to the FAQ team. We are happy to find the answer to your question and it could be added to our FAQ repository. The question form is located in the bottom right of the FAQ home page. Below is a screenshot of the form. Instructions on how to fill this out are included within the screenshot.
